

Product Description

VireXbuster Spray is optimal for HVAC systems, particularly air conditioning units. This spray effectively eliminates harmful virus, fungi and bacteria like Legionella, ensuring a healthier environment for up to 12 months. It is suitable for residential, commercial, and industrial applications, enhancing the performance and longevity of HVAC systems.

The product's efficacy has been independently tested by Fraunhofer Institute and Quality Labs.

KEY FEATURES

- Long-lasting biocidal activity (up to 12 months)
- Effective against bacteria and viruses
- Performs well under harsh conditions
- Skin-safe (certified by Institute Dermatest GmbH)
- Copper and nano-material free

PRODUCTS PROPERTY

Color Thickness	Transparent 10-50 µm
Density	ca. 0,9 g/cm ³ (DIN EN ISO 20811-1)
Max Operating Temp	Max. 90° C at low RH
Storage temp	5/25°C
Storage Stability	24 months
VOC-Wert	As per MSDS

REGISTRATION INFORMATION

Part number	100102
BAUA Reg. No (Germany)	N-100947
ECHA UFI Number	7AYV-50ESS00Y-627U
EAN	417 000 000 9092

SUBSTRATE PREPARATION

STAGE	DESCRIPTION
Preparation	The surface must be free of grease, and moisture. Use in a well-ventilated area. Shake the can for 2 minutes after you hear the balls inside the can begin moving freely. Before applying extensively, test on a small, inconspicuous area to ensure compatibility with the substrate.
Substrate	Suitable for porous and non-porous surfaces: wood, carton, stone, metal, plastic (PP, PE, PVC, PC, ABS, PU)
Application	Turn off ventilation, evenly spray the inside air duct. Ensure complete coverage. Wait until is dry then ventilate. Avoid eye/skin contact, wear safety goggles and mask (EN 136/140) for spray painting.
Ambient temperature	For best result apply at an ambient temperature of 10-30°C at max 80% RH.
Drying time (at 50 µm TSD, 20°C, 65% RH)	- Dust dry: 5-10 min - Transportable after 6 hours - Touch dry after 1 hour - Fully dried after 12 hours
Forced drying	Allow to rest for 20 min, then 2 hours forced drying.
